

Gemcision™ Sapphire Knives Catalog

FCI-Ophthalmics.com

FCI®

a ZEISS company

FCI is a world leader in the development of a wide range of ophthalmic surgical devices. Since the company's inception in 1984, we are committed to responding to the ever-changing needs of eye care professionals with innovative research and advanced materials.

Following the acquisition of Katalyst Surgical, Inc. in 2022, FCI is excited to announce the expansion of its anterior segment portfolio with advanced instruments. Our newly expanded portfolio includes a wide range ultra-sharp Gemcision™ sapphire blades.

Separate catalogs are available for FCI's posterior segment, oculoplastics and dry eye product portfolios.

In addition to our anterior segment portfolio, we also offer a full range of other eye care products, including vitreoretinal surgery devices, lacrimal stents and tubes, orbital implants, retinal detachment devices, ptosis repair devices, knives and sutures, and dry eye products.

GEMCISION™ (BLADES)

Ultra-sharp, resposable Gemcision™ blades are a great cost-cutting alternative to both diamond and stainless steel blades and come in several shapes and styles. The resposable Gemcision™ blades have retractable handles for blade protection.

Bevel up
